## SUMMARY

Full Stack Developer with 3 years of Front-End experience and 1 year of Back-End experience. Experienced in building and maintaining web applications using React, Next.js, TypeScript, Node.js, and SQL. Passionate about creating efficient, user-friendly solutions and continuously learning new technologies.

## EXPERIENCE

### Full-stack Developer & Team Leader — ENS, Tanta

Oct 2024 - Present

- **Leadership:** Serving as Team Leader, leading the development team and overseeing core company web applications, including ENSmenu.
- **Back-End Development:** Developed and maintained robust REST APIs using Node.js and Express.
- **Database Management:** Worked extensively with SQL Server, MongoDB, and Supabase to manage application data.
- **Front-End Development:** Built highly responsive and accessible user interfaces utilizing React and Next.js.

### Full-stack Freelancer — Remote

Aug 2025 - Present

- **Full Lifecycle Management:** Handled the entire project lifecycle independently for various clients, from UI design to final deployment.
- **Front-End & UI:** Developed custom, responsive web applications using React and Next.js.
- **Back-End & Database:** Built secure back-end APIs with Node.js and Express, and managed database setups with SQL Server, MongoDB, and Supabase.

## SKILLS

|               |                                                               |
|---------------|---------------------------------------------------------------|
| Frontend:     | HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript |
| Backend & DB: | Node.js, Express.js, SQL Server, MongoDB, Supabase            |
| Tools & Core: | REST APIs, UI/UX Design, Git & GitHub                         |

## PROJECTS

### ENSmenu

A complete digital menu platform for restaurants and cafes. Customers scan a QR code to browse an interactive menu, while restaurant owners manage categories, products, prices, and analytics from a dashboard.

**Tech Stack:** React, Next.js, Node.js, Express, MongoDB, Supabase

### Lapip Store

A full e-commerce platform featuring a comprehensive product catalog, shopping cart, and a secure checkout flow designed to deliver a smooth, responsive shopping experience.

**Tech Stack:** [Next.js](#), [Node.js](#), [Express](#), [SQL Server](#)

### Morsh-D

A modern static e-commerce storefront focused on clean product presentation, strong brand identity, and fast performance without a custom back-end.

**Tech Stack:** [Next.js](#), [HTML5](#), [CSS3](#)
